SIDE EVENT

## ADRIATIC SEA PARTNERSHIP

Thursday, October 11, 2007

8.00 to 9.00 am

Room 3/1, Sava Center

### INVITATION

The purpose of the Side Event is to finalize the report “Scanning the Horizon: A Survey of Gaps and Opportunities for Cooperation on the Adriatic”. At the first Adriatic Sea Partnership (ASP) meeting in Sarajevo in April of this year, the ASP commissioned the Regional Environmental Center to produce a gap analysis, examining current international legal arrangements and the work of various bodies and initiatives to address priority issues requiring international cooperation, including Contingency Planning, Integrated Coastal Zone Management, Ballast Waters Management and matters under the EU Marine Strategy and draft directive. Participants who register in advance will receive a copy of the draft report and will be invited to provide comments at the Side Event. The event will include discussions led by a panel of high-level officials from the Adriatic region, experts and representatives of ASP partner organizations.

Please register for the event by sending an email to [rhideg@rec.org](mailto:rhideg@rec.org)

Coffee and pastries will be served.
